==========

VOLTIKA CUSTOMER PORTAL

FULL UX / PRODUCT / COLLECTIONS SPEC

==========

GENERAL PRODUCT CONTEXT

This portal is for Voltika customers who already purchased a motorcycle and need to:

- log in securely
- review weekly payments
- pay quickly
- pay extra without penalty
- update payment method
- download purchase documents
- manage profile and contact information

Important:

Voltika is NOT a bank and NOT a SOFOM.

Voltika is a commercial company selling motorcycles with payment facilities.

Because of that, all copy must sound commercial and service-oriented, not like a regulated financial institution.

Do NOT use wording such as:

- financial institution
- banking credit

- loan servicing company

- regulated lender

Preferred wording:

- tu compra

- tus pagos

- tu cuenta

- facilidades de pago

- documentos de tu compra

- tu Voltika

==========

SECTION 1 – LOGIN AND ACCESS RECOVERY

==========

1.1 MAIN ACCESS PRINCIPLE

Primary login must be simple and fast.

Phone number remains the main login channel, but phone number must NOT be the only identity key.

Customers frequently change phone numbers, so account recovery must rely on:

- registered email

- OTP to email

- one personal verification factor

- OTP to the new phone number

## 1.2 LOGIN SCREEN

ENGLISH INSTRUCTIONS:

Create a simple access screen with 2 clear options:

1. Standard login

2. Access recovery when the customer no longer has access to the old phone number

SPANISH UI COPY:

Title:

Bienvenido a Voltika ⚡

Primary button:

Iniciar sesión

Secondary text link:

¿Ya no tienes acceso a tu número?

Secondary button / link:

Recuperar acceso

## 1.3 STANDARD LOGIN FLOW

ENGLISH INSTRUCTIONS:

Standard login must work like this:

Step 1:

- ask for phone number

Step 2:

- send OTP to phone via SMS or WhatsApp

Step 3:

- validate OTP

Step 4:

- access granted

SPANISH UI COPY:

Screen title:

Iniciar sesión

Field label:

Número de teléfono

Placeholder:

Ingresa tu número

Primary button:

Continuar

OTP screen title:

Ingresa el código

Support text:

Te enviamos un código a tu teléfono

Field label:

Código

Primary button:

Continuar

1.4 ACCESS RECOVERY FLOW WHEN CUSTOMER CHANGED PHONE NUMBER

ENGLISH INSTRUCTIONS:

This flow is critical.

Do NOT require the old phone number.

Use the customer's account record to validate identity through:

- registered email
- OTP sent to email
- last name
- date of birth
- new phone OTP

Recommended recovery flow:

Step 1: ask for registered email

Step 2: send OTP to email

Step 3: validate last name

Step 4: validate date of birth

Step 5: ask for new phone number

Step 6: send OTP to new phone

Step 7: confirm number updated and allow login

IMPORTANT:

Do not allow free phone number changes without validation.

Log every phone number change event.

SPANISH UI COPY:

Recovery screen 1 title:

Recuperar acceso

Support text:

Si cambiaste de número, confirma algunos datos para proteger tu cuenta.

Field label:

Correo electrónico registrado

Placeholder:

Ingresa tu correo

Primary button:

Enviar código

Recovery screen 2 title:

Verifica tu correo

Support text:

Ingresa el código enviado a tu correo electrónico

Field label:

Código

Primary button:

Continuar

Recovery screen 3 title:

Confirma tu identidad

Field label:

Apellido paterno

Placeholder:

Ingresa tu apellido paterno

Primary button:

Continuar

Recovery screen 4 title:

Un paso más para proteger tu cuenta

Field label:

Fecha de nacimiento

Placeholder:

dd/mm/aaaa

Primary button:

Continuar

Recovery screen 5 title:

Nuevo número de teléfono

Field label:

Número nuevo

Placeholder:

Ingresa tu nuevo número

Primary button:

Enviar código

Recovery screen 6 title:

Verifica tu nuevo número

Support text:

Ingresa el código enviado a tu nuevo número

Field label:

Código

Primary button:

Confirmar

Recovery success screen title:

Número actualizado correctamente ⚡

Support text:

Ya puedes ingresar con tu nuevo número.

Primary button:

Ir a inicio

1.5 SECURITY RULES FOR LOGIN / RECOVERY

ENGLISH INSTRUCTIONS:

- Phone login: phone + OTP
- Recovery: email + email OTP + last name + date of birth + new phone OTP
- If multiple failed attempts are detected, trigger enhanced verification
- Enhanced verification can include manual review or ID/selfie verification
- Save logs:
  - timestamp
  - IP
  - device fingerprint if available

- old phone
- new phone
- validation method used

Use risk levels:

- normal risk: email OTP + last name + DOB + new phone OTP
- medium risk: add one more factor if needed
- high risk: block automatic recovery and escalate to support verification

==========

SECTION 2 – TAB BAR STRUCTURE

==========

ENGLISH INSTRUCTIONS:

The bottom navigation must include exactly 5 sections:

1. Inicio
2. Pagos
3. Cuenta
4. Documentos
5. Ayuda

SPANISH TAB LABELS:

Inicio

Pagos

Cuenta

Documentos

Ayuda

==========

SECTION 3 – HOME SCREEN (INICIO)

==========

3.1 PURPOSE

ENGLISH INSTRUCTIONS:

This is the collections-first screen.

Its job is not to explain too much.

Its main goal is to get the payment done quickly.

The primary CTA must be above the fold.

The main payment block must dominate the screen.

3.2 HOME SCREEN STRUCTURE

ENGLISH INSTRUCTIONS:

Build the home screen with this order:

1. Header with Voltika logo
2. Greeting
3. Status pill
4. Large primary weekly payment card
5. Prepayment card

6. Alternative payment section

7. Link to “Mis pagos e historial”

8. Bottom navigation

Do NOT overload the home with:

- long tables

- too much progress detail

- excessive legal text

- too many competing calls to action

3.3 SPANISH UI COPY – HOME

Greeting:

¡Hola, {{Nombre}}! 👏

Status pill:

AL CORRIENTE ✅

Remove any extra sentence like:

“Tu Voltika va muy bien.”

Keep it cleaner.

Main card title:

Paga esta semana ⚡

Main amount:

${{MontoSemanal}}

Due line:

Vence: {{FechaVencimiento}}

Primary CTA:

PAGAR ${{MontoSemanal}} ⚡

Support line below primary CTA:

Pago 100% seguro • Te toma menos de 1 minuto

Important anti-duplicate line:

Si pagas ahora, no se volverá a cobrar automáticamente.

Optional support line if needed:

Tu tarjeta domiciliada solo se usa si no realizas el pago a tiempo.

3.4 PREPAYMENT BLOCK

ENGLISH INSTRUCTIONS:

Make prepayment visible and attractive.

This is a cash flow tool.

Do not use technical lending language like “capital reduction”.

Use simple, persuasive wording.

SPANISH UI COPY:

Block title:

¡Adelanta pagos sin penalización!

Support text:

Entre más adelantas, menos pagas.

Button:

Adelantar pagos →

3.5 SECONDARY QUICK ACTIONS

ENGLISH INSTRUCTIONS:

Use only 3 quick action cards to avoid overloading the home screen.

SPANISH UI COPY:

Card 1 title:

Pagar esta semana

Card 1 subtitle:

Tu pago regular

Card 2 title:

Pagar 2 semanas

Card 2 subtitle:

Ahorra tiempo

Card 3 title:

Terminar antes

Card 3 badge:

SIN PENALIZACIÓN

Card 3 subtitle:

Reduce el tiempo total

3.6 ALTERNATIVE PAYMENT METHODS SECTION

ENGLISH INSTRUCTIONS:

Do not label it only as “SPEI”.

Use customer-friendly commercial wording.

The section must explain that the customer can also pay by bank transfer from any bank or in cash through OXXO.

These are fallback methods; the card on file remains required.

SPANISH UI COPY:

Section title:

Paga como quieras

Section subtitle:

Elige la opción que más te convenga.

Card title:

Transferencia bancaria

Badge:

DE CUALQUIER BANCO

Card subtitle:

Rápido, seguro y sin salir de casa.

Card title:

Paga en efectivo

Badge:

EN CUALQUIER OXXO

Card subtitle:

Más de 22,000 tiendas.

3.7 SECURITY BANNER

SPANISH UI COPY:

Tus pagos están protegidos con encriptación bancaria.

3.8 LINK TO PAYMENTS SCREEN

SPANISH UI COPY:

Card title:

Ver mis pagos e historial

Card subtitle:

Revisa tu progreso y todos tus pagos.

3.9 HOME SCREEN LOGIC

ENGLISH INSTRUCTIONS:

- Main CTA must lead directly to payment flow

- No intermediate decision screen before payment

- If the user taps the main CTA, send them directly to Stripe checkout or the direct payment flow

- If the user manually pays, the weekly automatic charge for that same due period must not be duplicated

- Show overdue state if payment is missing

- Keep the home lightweight and conversion-oriented

==========

SECTION 4 – PAYMENTS SCREEN (MIS PAGOS)

==========

4.1 PURPOSE

ENGLISH INSTRUCTIONS:

This is the detail and confidence screen.

The user should be able to:

- understand what has already been paid
- see what is pending
- pay immediately
- verify that a manual payment will not be duplicated

## 4.2 SCREEN STRUCTURE

ENGLISH INSTRUCTIONS:

Use this layout order:

1. Header
2. Payment summary cards
3. Credit progress block
4. Payment history list
5. Primary payment method
6. Main payment CTA
7. Anti-duplicate reassurance text
8. Bottom navigation

## 4.3 SPANISH UI COPY – MIS PAGOS

Header:

Mis pagos

Subtitle:

Aquí puedes ver tu progreso e historial completo.

Summary cards:

Pagado a la fecha

Pagos realizados

Pagos restantes

Progress block title:

Avance de tu crédito

Progress headline:

Has completado {{Porcentaje}}%

Support text:

Sigue así, vas muy bien.

Payment history title:

Historial de pagos

Download link:

Descargar

History line example:

12 abr 2025

Pago semanal

${{Monto}}

Pagado

Pending line example:

18 abr 2025

Pago semanal

${{Monto}}

Pendiente

Information banner:

Tu próximo pago vence el {{FechaVencimientoCompleta}}.

Primary payment method title:

Método de pago principal

Example:

Visa •••• 4821

Action:

Cambiar

Primary CTA:

PAGAR ${{MontoSemanal}} AHORA

Support line below CTA:

Pago 100% seguro • Te toma menos de 1 minuto

Anti-duplicate reassurance:

Si pagas ahora, no se volverá a cobrar automáticamente.

4.4 PAYMENTS SCREEN LOGIC

ENGLISH INSTRUCTIONS:

- Show past paid items
- Show the next due weekly payment as pending
- Allow document download if needed
- Keep payment CTA always available
- Payment CTA must open the same direct payment flow as home
- If customer pays manually, mark that due cycle accordingly and prevent duplicate charge attempt

==========

SECTION 5 – DOCUMENTS SCREEN (MIS DOCUMENTOS)

==========

5.1 PURPOSE

ENGLISH INSTRUCTIONS:

This is a legal support and trust screen.

It must reinforce that Voltika is a commercial company with a formal digital process.

It must not sound like a bank or financial institution.

## 5.2 SCREEN STRUCTURE

ENGLISH INSTRUCTIONS:

Use this order:

1. Header
2. Intro text
3. Trust/legal message
4. Carta factura block
5. Conditional “put me current” block
6. Other purchase documents list
7. Optional support card
8. Bottom navigation

## 5.3 SPANISH UI COPY – DOCUMENTS

Header:

Mis documentos

Subtitle:

Aquí puedes consultar y descargar los documentos de tu compra Voltika en cualquier momento.

Trust/legal message:

Todos tus documentos son digitales y cuentan con validez legal en México.

Secondary trust text:

Guardados de forma segura y protegida.

Main document title:

Carta factura

Tag if available:

LISTA PARA DESCARGAR

Subtitle:

Para emplacar tu Voltika

Ready-state support text:

Tu cuenta está al corriente. Puedes descargarla y usarla para realizar tu trámite de placas.

Tags:

Oficial

Válida para emplacar

Download button:

DESCARGAR

Optional support note:

Descarga disponible desde tu cuenta para mayor seguridad.

Conditional blocked-state title:

¿Aún no puedes descargarla?

Conditional blocked-state text:

Para activar tu carta factura, tu compra debe estar al corriente.

Ponte al corriente y descárgala al instante.

CTA:

PAGAR AHORA ⚡

Other docs section title:

Otros documentos de tu compra

Download all:

Descargar todo

Document list items:

Contrato de compra con facilidades de pago

Firmado digitalmente

Acta de entrega

Confirmada

Comprobantes de pago

Historial completo de los pagos que has realizado.

Pagaré

Documento de tu operación

Optional support card title:

¿Dudas sobre tus documentos?

Support text:

Nuestro equipo está aquí para ayudarte.

Button:

CONTACTAR SOPORTE

5.4 DOCUMENT LOGIC

ENGLISH INSTRUCTIONS:

- Carta factura must be downloadable only when account is current according to Voltika rules

- The UI must communicate activation, not punishment

- Avoid wording like “blocked” or “denied”

- If account is not current, route to payment flow

- Save document download logs:

  - customer id

  - document type

  - timestamp

- IP/device if possible

==========

SECTION 6 – ACCOUNT SCREEN (MI CUENTA)

==========

6.1 PURPOSE

ENGLISH INSTRUCTIONS:

This screen is for profile management, identity maintenance, and account administration.

It must support customer autonomy without opening security risks.

6.2 SCREEN STRUCTURE

ENGLISH INSTRUCTIONS:

Use this order:

1. Header
2. Profile block
3. Account protection block
4. My Voltika block
5. Preferences list
6. Quick access links
7. Support block
8. Bottom navigation

## 6.3 SPANISH UI COPY – ACCOUNT SCREEN

Button:

Chatear por WhatsApp

6.4 PHONE NUMBER CHANGE INSIDE ACCOUNT

ENGLISH INSTRUCTIONS:

The account screen must include the current verified phone number.

The user can request a phone number update from here, but the change must not be immediate or unverified.

Use this exact flow:

- user taps “Editar” or “Cambiar número”
- open secure update flow
- validate with:
  1. email OTP
  2. last name
  3. date of birth
  4. OTP to new phone
- once complete, update the phone number
- save logs for the change event

SPANISH UI COPY FOR CHANGE NUMBER ENTRY:

Cambiar número

Support text:

Por seguridad, confirmaremos algunos datos para proteger tu cuenta.

6.5 ACCOUNT SCREEN LOGIC

ENGLISH INSTRUCTIONS:

- Do not allow free editing of critical identity fields without validation
- Allow profile maintenance with secure verification
- Keep phone and email as verified identity anchors
- Save changes and logs
- Show account verified status when validations are complete

==========

SECTION 7 – PAYMENT FLOW RULES

==========

7.1 PRIMARY PAYMENT CTA DESTINATION

ENGLISH INSTRUCTIONS:

The main “PAGAR” CTA from Home and Mis pagos must go directly to payment.

Do not add unnecessary intermediate screens.

Preferred flow:

- tap CTA
- open direct Stripe payment flow
- confirm payment
- success screen

Do NOT send the user to:

- a long summary screen
- a payment method chooser before the direct card flow
- extra confirmation pages that create friction

7.2 DUPLICATE PAYMENT PREVENTION

ENGLISH INSTRUCTIONS:

This is critical.

If the customer pays manually from the portal for the current weekly due cycle:

- mark that cycle as paid or pending settlement
- suppress duplicate automatic collection for the same cycle
- show reassurance in UI

SPANISH reassurance copy:

Si pagas ahora, no se volverá a cobrar automáticamente.

Optional longer version:

Tu tarjeta domiciliada solo se usa si no realizas el pago a tiempo.

7.3 ACTIVE CARD RULE

ENGLISH INSTRUCTIONS:

Voltika must always require an active card on file.

Alternative methods (bank transfer and OXXO) do not replace the card on file.

They are complementary methods.

UI wording should not sound punitive.

Use commercial language.

==========

SECTION 8 – AUTOMATED PAYMENT REMINDERS

==========

GENERAL COLLECTIONS PRINCIPLE

ENGLISH INSTRUCTIONS:

Weekly collections reminders must be:

- short
- clear
- action-oriented
- confidence-building
- non-banking in tone

Use:

- email + WhatsApp

- simple due reminders

- follow-up after failed or missing payment

- quick access to portal and payment

Do not use threatening language too early.

Escalate progressively.

==========

SECTION 9 – DEVELOPMENT / STATE RULES

==========

ENGLISH INSTRUCTIONS:

Use these core states:

- account_current
- payment_due_soon
- payment_due_today
- payment_pending
- payment_overdue
- card_update_required

UI reactions:

- Home reflects most urgent state
- Payments screen reflects payment history and next pending item

- Documents screen reflects access to carta factura depending on “current” status

- Account screen reflects verified profile data and secure update flows

Always log:

- login attempts

- recovery attempts

- phone updates

- payment attempts

- successful payments

- document downloads

==========

SECTION 10 – FINAL PRODUCT PRINCIPLES

==========

ENGLISH INSTRUCTIONS:

This portal must feel:

- simple

- formal

- commercial

- secure

- fast

It must not feel:

- bureaucratic

- banking-heavy
- overly technical
- difficult to navigate

Top priorities:

1. Get the weekly payment done fast
2. Preserve identity and account security
3. Make documents easy to access
4. Support collections without sounding abusive
5. Keep the experience premium and trustworthy

==========

END OF DOCUMENT

==========
